🏛 Professional Experience

IT & AI Consultant — Freelance — Agadir, Morocco

Since September 2025

- Building an entrepreneurial activity: e-commerce and AI solutions.
- Guiding clients in their digital transformation towards AI agent-based solutions and workflow automation.
- Collaborating with Major Media on web and AI solution integration.

Software Engineer — France Télévisions Publicité — Boulogne-Billancourt

2023 — 2025

Internal application redesign:

- Requirements gathering and analysis, writing technical specifications.
- Application migration from Delphi to PHP (Zend) / Angular, improving maintainability and reducing deployment time.
- Build, test and deployment automation via CI/CD pipelines (Git).
- Unit testing and production release management.

Weather-based ad targeting:

- Designing ad-targeting algorithms based on real-time weather data.
- Third-party API integration and database automation via Cron Jobs.

Tech stack: PHP (Zend), Angular.

Software Engineer — Niji — Lyon

2019 — 2022

Multi-client projects: CCI site factory, TCL, Mongo Mobility By APRR, Unéo Group:

- Web development using Scrum methodology (teams of 4 to 12 people).
- Requirements gathering, writing functional specs and user stories.
- Project scoping, technical workshops facilitation and estimation.
- Development and customization of Drupal modules (back-end & front-end).
- Application maintenance (TMA).
- Environment administration (dev, test, prod) via Docker and Kubernetes.
- Delivery and deployment.

Architectures: MVC, hexagonal.
Tech stack: Drupal, Symfony, Twig, JS (VanillaJS, jQuery, Angular).

🎓 Education

MSc Advanced Information Systems — IAE - Université Jean Moulin Lyon 3

September 2018 — September 2019

MSc Information Systems Management — IAE - Université Jean Moulin Lyon 3

September 2017 — September 2018

BSc Mathematics & Computer Science — Université Claude Bernard Lyon 1

September 2016 — September 2017

DUT Computer Science — Université Claude Bernard Lyon 1

September 2014 — July 2016

🔧 Skills

Back-end
PHP (Symfony, Laravel, Zend/Laminas), Drupal, October, Python, Java, .NET

Front-end
Angular, React, Vue, Twig.

Databases
MySQL, PostgreSQL, MongoDB, Oracle PL/SQL.
